Material Safety Data Sheet		
PROGUARD® 3" TABLETS		
Version: 1.1	Revision Date: 11/10/2010	Print Date: 03/03/2012
SECTION 1. PRODUCT AND COMPANY IDENTIFICATION		
Product name:	PROGUARD® 3" TABLETS	
Product Use Description:	Swimming Pool Product	
Chemical nature:	Chlorinated Isocyanurates	
Registration number:	5185-144	
Company:	Bio-Lab, Inc. P.O. Box 300002 Lawrenceville, GA 30049-1002	
	Telephone: (800) 859-7946	
Emergency telephone number:	CHEMTREC: (24 hours) 800-424-9300, 703-527-3887 Poison Control Center (Medical) :: (877) 800-5553	
	For additional emergency telephone numbers see section 16 of th	e Safety Data Sheet.
Prepared by:	Product Safety Department (US) +1 866-430-2775	
	+011-886-2-2712-5668 MSDSRequest@chemtura.com	

SECTION 2. HAZARDS IDENTIFICATION

Emergency Overview

<u>Form</u> : tablet	Colour: white Odour: Chlorine	
Hazard Summary	: Corrosive Oxidizer Causes serious eye damage. Causes skin burns. May be fatal if absorbed through skin. Harmful or fatal if swallowed. May be fatal if inhaled. Causes respiratory tract irritation. Avoid breathing dust or vapor. Do not get in eyes, on skin, or on clothing.	

Material Safety Data Sheet			
ROGUARD® 3" TA	BLETS		
rsion: 1.1	Revision I	Date: 11/10/2010	Print Date: 03/03/20
OSHA Hazards		L IS HAZARDOUS UNDER T OSHA HAZARD COMMUNI 00.	
Potential Health Effects			
Primary Routes of Entry	: Eye contact Skin contact Inhalation Ingestion		
Aggravated Medical Condition	: Respiratory disorde Skin disorders	ers	
Inhalation	: May be fatal if inhal Causes respiratory		
Skin	: May be fatal if abso Causes skin burns. On contact with mo in burns if not prom	isture, this material readily hydroly	zes to acid which may result
Eyes	: Causes serious eye	e damage.	
Ingestion	: Harmful or fatal if s	wallowed.	
Chronic Exposure	: None known.		
CTION 3. COMPOSITION/IN Hazardous components	FORMATION ON INGREE		
Component		CAS-No.	Weight percent
			99 %
Trichloro-s-triazinetrior	1e	87-90-1	33 /8
CTION 4. FIRST AID MEAS		87-90-1	33 /0
	URES : Remove to fresh air If person is not brea respiration, preferal		hen give artificial

	Material Safety Data Sheet		
PROGUARD® 3" TABLETS			
sion: 1.1	Revision Date: 11/10/2010 Print Date: 03/03		
Skin contact	 Remove contaminated clothing and shoes. Rinse immediately with plenty of water for at least 15 minutes. Call a physician or poison control centre immediately. 		
Eye contact	 Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a physician or poison control centre immediately. 		
Ingestion	 Call a physician or poison control centre immediately. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Do not give anything by mouth to a convulsing or unconscious person. 		
Notes to physician			
Treatment	: Probable mucosal damage may contraindicate the use of gastric lavage.		
Fire fighting			
Flash point	: Remarks: not applicable		
	: Flood with large volumes of water.		
Unsuitable extinguishing	: ABC powder		
media	Dry powder Risk of violent reaction.		
media	 Risk of violent reaction. Do not let fire burn. Nitrogen trichloride can be generated slowly by the reaction of small quantities of water with a high concentration of this product. Nitrogen trichloride can present an explosion hazard. Immediately after a fire has been extinguished, check for wet or damp material. Any spilled material from burned or broken containers should be assumed contaminated. Neutralize to a non-oxidizing material for safe disposal. Do not attempt to re-close broken containers, even for movement to the disposal area. They should be left open to disperse any nitrogen trichloride that may form. Material which appears undamaged except for being damp on the outside, should be opened and inspected immediately. If the plastic liner (where applicable) of the container is damaged or the material is damp, the material should be chemically treated if allowable, to a non-oxidizing material for safe disposal. Bulging containers require extreme care. Contact the fire department. 		
media Further information	 Risk of violent reaction. Do not let fire burn. fighting	containing gases.	
Special protective equipment for fire-fighters	 In the event of fire, wear self-contained breathing apparatus. Thoroughly decontaminate fire fighting equipment including all fire fighting wearing apparel after the incident. 	
CTION 6. ACCIDENTAL RELE	EASE MEASURES	
Environmental precautions	: Do not flush into surface water or sanitary sewer system.	
Methods for containment / Methods for cleaning up	 Using appropriate protective clothing and safety equipment, contain spilled material. Do not add water to spilled material. 	
	Using clean dedicated equipment, sweep and scoop all spilled material, contaminated soil, and other contaminated material and place into clean dry containers for disposal. Do not close containers containing wet or damp material. They should be left open to disperse any hazardous gases that may form.	
Additional advice	: Do not use floor sweeping compounds to clean up spills.	
CTION 7. HANDLING AND ST	Do not transport wet or damp material. Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations".	
	Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations".	
CTION 7. HANDLING AND ST Handling Handling procedures	Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations". TORAGE : Strong oxidizing agent. Avoid contact with skin, eyes and clothing.	
Handling	Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations". TORAGE : Strong oxidizing agent. Avoid contact with skin, eyes and clothing. Avoid breathing dust.	
Handling	 Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations". TORAGE Strong oxidizing agent. Avoid contact with skin, eyes and clothing. Avoid breathing dust. Avoid breathing vapors. Do not mix with other chemicals. 	
Handling	 Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations". TORAGE Strong oxidizing agent. Avoid contact with skin, eyes and clothing. Avoid breathing dust. Avoid breathing dust. Do not mix with other chemicals. Mix only with water. 	
Handling	 Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations". TORAGE Strong oxidizing agent. Avoid contact with skin, eyes and clothing. Avoid breathing dust. Avoid breathing dust. Do not mix with other chemicals. Mix only with water. Never add water to this product. 	
Handling	Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Treat recovered material as described in the section "Disposal considerations". TORAGE : Strong oxidizing agent. Avoid contact with skin, eyes and clothing. Avoid breathing dust. Avoid breathing vapors. Do not mix with other chemicals. Mix only with water. Never add water to this product. Always add product to large quantities of water. Use only clean and dry utensils.

Storage		
Requirements for storage areas and containers	 Store in original container. Temperature not to exceed 52 C (125F) for 24 hours. Store in a cool, dry, well ventilated area away from heat or open flame. Keep out of reach of children. Keep away from animals. 	
CTION 8. EXPOSURE CON	TROLS/PERSONAL PROTECTION	
Exposure Guidelines		
Engineering measures		
Engineering measures	: Ensure that eyewash stations and safety showers are close to the workstation location. Use with adequate ventilation.	
Personal protective equip	oment	
Eye protection	: Safety glasses with side-shields	
Hand protection	: Wear rubber gloves.	
Respiratory protection	: A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.	
Hygiene measures	: Avoid contact with skin, eyes and clothing. Avoid breathing dust or vapor. Wash contaminated clothing before reuse.	
CTION 9. PHYSICAL AND C	CHEMICAL PROPERTIES	
Appearance		
Form Colour	: tablet : white	
Odour	: Chlorine	
Safety data		
	: Note: not applicable	
Flash point		
Flash point pH	: 3-3.5

	at 77 °F (25 °C) Note: 1% Solution	
Melting point/range	: 437 - 446 °F (225 - 230 °C) Note: Decomposes	
Boiling point/boiling range	: Note: not applicable	
Vapour pressure	: Note: Not Available	
Density	: 0.88 - 0.96 g/cm3	
Water solubility	: 1 - 1.2 g/l at 77 °F (25 °C)	
Relative vapour density	: Note: Not Available	
	Poor ventilation. Contamination Moisture/high humidity.	
Conditions to avoid Materials to avoid		erial in the
	container. Avoid contact with easily oxidizable material; a similar nitrogen containing compounds; inorganic reducin floor sweeping compounds; calcium hypochlorite; other s chemicals in their concentrated form; alkalis. Avoid conta chemicals.	ng compounds; swimming pool/spa
Hazardous decomposition products	: Note: Chlorine containing gases can be produced.	
Thermal decomposition	: 225 - 230 °C	
Hazardous reactions	: Hazardous polymerisation does not occur.	
ECTION 11. TOXICOLOGICAL	INFORMATION	
Acute oral toxicity	: LD50: 809 mg/kg Species: rat	
Acute inhalation toxicity	 Remarks: Direct contact with wet material or moist skin r irritation, pain and possibly burns. This material in the form as sold is not expected to produce 	-

This material in the form as sold is not expected to produce respiratory effects.

If ground or otherwise in a powdered form, effects similar to a corrosive

SECTION 13. DISPOSAL CONSIDERATIONS

Further information	 Dispose of waste material in compliance with all federal, state, and local regulations. If these wastes cannot be disposed of by use according to label instructions, contact your Environmental Control Agency or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance. For registered pesticides, contact your State Pesticide Agency. Do not contaminate ponds, waterways or ditches with chemical or used container. Do not put product, spilled product, or filled or partially filled containers into the trash or waste compactor. Contact with incompatible materials could cause a reaction or fire. Improper disposal of excess product, spray mixture or rinsate is a violation of Federal Law. 	
Contaminated packaging	: Do not re-use empty containers. Rinse thoroughly before discarding in trash.
